

Application No. 10/776,018

Filed: 2/10/2004

TC Art Unit: 3673

Confirmation No.: 9076

AMENDMENT TO THE CLAIMS

1. (Cancelled)
2. (Previously Amended) A seat cushion according to claim 24, wherein the covering is connected to at least an upper surface of the first foam body.
3. (Previously Amended) A seat cushion according to claim 24, wherein the covering is glued to the first foam body.
4. (Currently Amended) A seat cushion according to claim 24, wherein the first and second foam body are detachably connected to each other by ~~Velcro~~ hook and loop connections.
5. (Previously Amended) A seat cushion according to claim 24, wherein the covering comprises a fire-retardant material.
6. (Previously Amended) A seat cushion according to claim 24, wherein the said covering comprises glass fiber.

TC Art Unit: 3673

Confirmation No.: 9076

7. (Currently Amended) A seat cushion according to claim 24, wherein the second foam body is also provided with a covering, wherein the covering of the second foam body preferably comprises a fire-retardant material and further, ~~wherein the covering of the second foam body preferably comprises glass fiber.~~

8. (Previously Amended) A seat cushion according to claim 24, wherein the seat cushion is arranged to be detachably placed on a seat apparatus.

9. (Previously Amended) A seat cushion according to claim 24, wherein the covering is provided with at least a part of the said detachable connecting means.

10. (Previously Presented) A seat cushion according to claim 9, wherein the first and second foam body are detachably connectable to each other only via the covering.

11. (Previously Presented) A seat cushion according to claim 9, wherein the second foam body is arranged, near respective bottom edges, to be detachably connected to the covering.

17. (Previously Amended) A seat cushion according to claim 24, wherein said fire-retardant foam material comprises melamine foam.

18. (Cancelled)

19. (Previously Amended) A seat apparatus provided with a seat cushion according to claim 24.

20. (Currently Amended) A vehicle, vessel and/or aircraft, provided with a seat apparatus according to claim 19.

21. (Currently Amended) A seat cushion according to claim 24, wherein:

~~the covering is glued to the first foam body;~~  
~~the first and second foam body are detachably connected to~~  
~~each other by Velcro connections;~~  
the covering comprises a fire-retardant material;  
~~the said covering comprises glass fiber;~~  
the second foam body is also provided with a covering,  
wherein the covering of the second foam body preferably
